

# Huynh Bao Nguyen

## Developer Internship

### Profile

I am a final-year student at Can Tho College with a strong passion for web development, particularly in backend development.

- **Short-term goal:** To apply my academic knowledge in a real-world environment, improve my practical skills, and gain hands-on experience through internships or entry-level opportunities.
- **Long-term goal:** To become a skilled and reliable backend developer, capable of designing and maintaining scalable systems, and contributing effectively to large-scale projects in a professional tech environment.

### Education

#### Can Tho College

Major in Web Design

- September 2023 - May 2026

### Experience From Projects

Present

↑  
09/2023

#### Personal Project

- Gained experience in developing web applications using ASP.NET Web API for the backend and Vue 3 with Vite and Pinia for the frontend.
- Utilized Axios to communicate with RESTful APIs for data handling, user authentication, and content pagination.
- Applied Object-Oriented Programming (OOP) principles to design scalable and maintainable backend architectures.
- Backend development tasks including API integration, data processing, and system logic implementation.

#### Object-Oriented Programming (OOP) Skills

- Good understanding of OOP concepts: Inheritance, Polymorphism, Encapsulation, and Abstraction.
- Wrote clean and organized code using classes, objects, and interfaces.
- Used inheritance to reuse code and keep it simple.
- Applied encapsulation and abstraction to protect data and make code flexible.
- Improved code by refactoring and keeping it easy to read and maintain.
- Improved code by refactoring and keeping it easy to read and maintain.

### Contact

**Phone**  
☎ +84 908119698

**Address**  
🏠 84 Street No. 6, KV 1,  
Tan An District, Can Tho  
City, Vietnam

### Technical Skills

#### Programming Languages

- C#, JavaScript, PHP,

#### Markup & Styling Languages

- HTML, CSS

#### Frameworks / Libraries

- ASP.NET Core, Vue 3, WordPress

#### Database

- SQL Server

#### Tools

- Git, GitHub, Postman

#### Others

- RESTful APIs, Cloudinary, JWT

### Soft Skills

- Team Collaboration
- Self learning
- Problem solving
- Optimize code with AI

### Languages

**Vietnamese** Main language

**English** Intermediate

Basic communication, reading comprehension

# Projects

15/4/2025

12/3/2025

## 1. GoodComics

Developed an online comic reading platform using ASP.NET Web API for the backend and Vue 3 with Vite and Pinia for the frontend.

### Technologies:

- **Backend:** ASP.NET Core Web API, SQL Server
- **Frontend:** Vue 3, Vite, Pinia

### Project Repository:

[https://github.com/HnguyenDevGoon/GoodComics\\_BE](https://github.com/HnguyenDevGoon/GoodComics_BE)

20/5/2025

21/4/2025

## 2. HUMG Union Member Management

Developed a Youth Union member management system with a backend built on ASP.NET Web API and a frontend using Vue 3, Vite, and Pinia. Integrated Axios for API communication and implemented JWT-based authentication to ensure secure user access.

### Technologies:

- **Backend:** ASP.NET Core Web API, SQL Server
- **Frontend:** Vue 3, Vite, Pinia
